Dear Janet

I have been on the Business Park for 12 years now and in that time I have moved offices four times. We found the flexibility and ease our moves helped with the expansion of our business.

I have found all the staff very helpful and willing to offer assistance whenever it is required.

I have also managed to expand our Company via the close business community within the Park.

I would have no hesitation in recommending the Business Park to anyone who requires, well managed professional workspace, where they are given every opportunity and assistance to expand whenever they are ready.

Yours sincerely

Kenny Hopton
