

OMIKRON

February 2010

To whom it may concern,

Over many years and across several businesses I have chosen Carrington Business Park as the site to grow and operate these businesses.

CBPL is an organisation that is not just interested in its own profit and shareholders but is actively interested in helping to support small and medium sized companies to grow and prosper. From its flexible, short term and all inclusive licensing through its great selection of meeting facilities and its own on-site bistro/café, it is all about helping small businesses give the right impression at the right cost.

A well located Business Park with a wide range of office accommodation, ample parking, on-site security and excellent facilities. Larger firms can conduct their own self contained operation and PABX whilst smaller firms can walk into an office with telephone, internet, fax, reception and meeting rooms on tap.

But probably its greatest asset is its staff. Starting with the friendly telephone welcome and professional reception service right through the supportive administration team and on to the senior management, the feeling is one of a community rather than a business.

I should know, I have migrated a large existing business to the Park, set up and grown new businesses here and I'm currently back again with my new venture; because the environment worked for me at each level and the people are great.

I would have no hesitation in recommending any existing business or new start-up business to consider moving to CBPL for location, cost, capacity and competence.
